My Approach: The supervision I offer is a safe and protected environment used by supervisees to reflect on their professional practice and personal learning, with honest and respectful feedback, therapeutic and organizational support and development. Supervision is tailored to the individual and may involve practice set up and development, maximizing outcomes in time limited practice, development of process and therapeutic skills, managing complex cases, transference and counter transference issues and management of organizational issues. We will set up a supervision contract, learning goals and have regular open discussions and evaluations of all aspects of the Supervisory relationship.

Location and Fee Schedule: Individual and group supervision is available in Port Melbourne. Fees are \$140 per hour for Registered Psychologists (concessions are available for Provisional and Early career Psychologists at a rate of \$130 per hour).
